Due to variations in applicable laws and regulations, a vehicle listed with a "clean" or "clear" or other similar title or ownership document type may have a salvage, junk, or other history. Regardless of whether the title or ownership document type is listed as "clean" or "clear" or does not otherwise indicate a salvage history on the auction listing, the title or ownership document may become a salvage, reconstructed, or an otherwise branded title or ownership document upon registration in your state or any other jurisdiction. Especially vehicles that state clean title with salvage history

Additionally, due to variations in applicable laws and regulations, you may receive a title or ownership document which is different from the title or ownership document that is listed on the lot listing page. Processing times for titles or ownership documents may take 5-7 weeks and result in additional fees.

Buyers of vehicles titled as "**Certificates of Destruction**," "Non-Repairable Vehicle Certificates," "**Junk Certificates**," or a title with other brands that indicate the vehicle cannot be retitled, or that the vehicle has no resale value except as a source of parts or scrap, will only receive Purchase Agreement Documents for the parts or scrap purchase and not a physical title. Buyers wishing to export such a vehicle must contact our Buyer Services Center with their intention to export prior to sale. In order to export a vehicle with such a title, there is an additional processing fee, and the processing time is generally two to six weeks.

Registration laws vary by state and are subject to change. Vehicles purchased via our Services are not represented, warranted, or guaranteed to be able to be legally registered in any state or other jurisdiction. Nor is there a representation, warranty, or guarantee that you will receive the specific title or ownership document that is listed on the lot listing page. It is your sole responsibility to determine whether you will be able to register the vehicle or receive a "clean" or "clear" title in your state or any other jurisdiction prior to placing any bid or purchasing any vehicle using our Services, and you accept all risks associated with variations in vehicle title and registration laws and regulations between states and other jurisdictions that may prevent you from titling or registering your vehicle or may negatively impact the marketability of your vehicle purchased using our Services.
